FUZO

Fuuzo is build as a crowdsourcing logistic and parcel service platform, based on a smartphone app and web interface.

If you need something transported you can post it in Fuuzo or if you have some means of transportation you can offer to do a delivery.

VISION

Delivering local
value.

Our vision is to create a new way of seeing and doing deliveries, and by doing so, create value and sustainable development, by giving people the opportunity to create a better life for themselves.
